Summary:

Attached is the current draft of the 2018 budget, which we will review during our meeting on the 17th. Please review and have questions/comments ready to share with all Trustees so we can arrive at a consensus for the November meeting when it will be approved on 1st reading.

Discussion:

Please note the following specific items contained in the budget:

- Page 1 of the financial portion of the budget reflects a decrease in overall reserves of \$70,000 for 2018.
- 2. Page 2 of the financial portion (NEW) presents the details of the various reserves included in our overall reserve figure from page 1.
- Administration line item for computer expense includes \$10,000 in 2018 for the new proposed software for the building department.
- 4. Administration line item for building maintenance and utilities includes \$21,900 for repairs noted in the presentation by Hobbes at our last meeting.
- 5. Capital includes the first year estimate for light pole replacement in Town. There will not be a new police vehicle in 2018.

Feel free to call prior to the meeting with any questions or comments.

Town of Columbine Valley 2018 Budget Narrative Portion

December 12, 2017

The 2018 Town budget consists of a financial portion and a related narrative portion.

Basis of Accounting

The Budget is prepared and accounting records are maintained using a modified accrual basis of accounting. Revenues, such as property taxes and sales taxes are recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the budget year or soon thereafter. Expenditures are recorded when a liability is incurred.

General Information

The Town has one General Fund, which is increased by revenues received from various Town imposed taxes and fees. The Fund is decreased by expenditures for (1) Town operating expenses and (2) amounts set aside (reserved) or appropriated for major infrequent purchases such as police vehicles, operating equipment etc., and major one time only public works. Amounts, set aside, are placed in designated or general type reserves. Amounts in these reserves are depleted as a major purchase is made or a major public works project is undertaken. Small reserves have also been established for controlling the spending of restricted lottery receipts (Conservation Trust Fund) and Arapahoe County Open Space Shareback sales tax receipts.

Sources of revenues are explained below. The main sources, however, are property taxes and various sales taxes. The amount of property taxes levied each year has been the maximum permitted in order to fund operating expenses and reserves for major public works deemed needed by the Town. Columbine Valley is subject to various property tax limitation statutes, notably Amendment #1, (TABOR/Bruce Amendment) and others.

The Town's on-going commitments for expenditures are as follows:

- Public Safety Police protection and municipal court activity (now includes the Town of Bow Mar)
- Sanitation Trash removal
- Public Works Town street and property maintenance
- Administration Town office expense including election, publication, legal and other operating costs
- Planning & Zoning Town development expenses

Amendment #1

On November 3, 1992, the voters of Colorado passed Amendment #1 that restricts the rate of increase in spending by local governments. The maximum annual percentage change in any year's spending and property tax revenues is limited to 1) inflation (rise in consumer price index) plus 2) a percentage equal to the net percentage change in the Town's actual valuation of all real property. Spending may be increased if the voters in the Town approve additional taxes through an initiative referendum election. Revenues that exceed Amendment #1 limits are refunded in the following year unless the voters approve otherwise. In November 1998 the Town was successful in passing a referred measure to authorize the Town to collect, retain and spend all excess revenue collected in 1998, and thereafter, without regard to any limitations under TABOR provided that no local tax rate or mill levy be increased without further voter approval.

Sources of Fund Increases

Property Taxes – General Fund -\$348,047

With the advent of Amendment #1, three separate (limiting) calculations are made to determine the allowable property tax levy for the General Fund. The lowest of the three is the maximum property taxes that the Town may collect. These three calculations for 2018 are as follows:

- 1. Amendment #1 property tax revenue limitation \$348,047
- 2. Amendment #1 mill levy rate limitation \$398,594
- 3. Statutory 5.5% property tax revenue limitation \$358,394

The lowest of the three amounts is the first calculation.

The following simple explanations are a short description of the three calculations, which can be very complicated.

The 1st calculation is based upon the percentage increase (2016 to 2017) in actual value of Town real property plus an allowance for the rise in the consumer price index multiplied by the 2017 certified property tax revenue.

The 2nd calculation is based upon the 2016 mill levy times the 2017 assessed valuation of the Town real property.

The 3rd calculation is based upon the 2016 adjusted assessed valuation of Town real property multiplied by the 2016 mill levy, adjusted for a 5.5% statutory increase.

Specific Ownership Tax - \$23,353

Specific ownership taxes are collected by the County Department of Motor Vehicles for vehicles registered in the Town. The amount allocated to the Town by the County is based upon its proportionate share of all County imposed property taxes. The budget for 2018 reflects virtually no increase from the projected revenue for 2017.

Sales & Use Tax - \$656,500

The Town collects sales taxes on retail sales within the Town boundaries. These taxes come from sales by Columbine Country Club, its pro shop, CenturyLink, and A T & T. The Town also collects sales tax on automobile purchases by Town residents and on materials purchased for new and remodel home construction. The 2018 Budget provides for the construction of twenty (20) new homes in one continuing development begun 2016 and the new Wild Plum Farm development which will begin in 2018. The 2018 Budget also anticipates remodeling costs to be approximately \$1.65 million generating \$50,000 in sales taxes. With the completion of the new Columbine Country Club facility, we anticipate an approximate \$50 thousand increase in sales tax revenues from Country Club activities in 2018. Other sales taxes are estimated to be virtually the same as the 2017 projected levels.

Utility Franchise Fee - \$46,000

Utility franchise fees come from two sources, Public Service Company of Colorado (Xcel Energy) and CenturyLink (formerly Qwest). The fee received from Public Service is 3% of their billings to Town residents. An annual flat fee of \$3 is received from CenturyLink for each local telephone line in the Town. These fees are expected to increase over the next few years largely as a result of additional new homes in the Town.

Cable TV - \$31,000

The Town has granted non-exclusive ten-year cable franchises covering all of Columbine Valley to two separate cable tv providers. The agreements expire in 2026 and 2027, unless renewed or extended. Each agreement stipulates that the Town receives an annual fee equal to 5% of gross cable receipts by the cable operator. Cable revenues have increased in recent years, likely due to increased premium services and additional home construction. Our budget has increased modestly to project the impact of additional new home construction.

Permits Fees - \$295,000

Permit fees (including plan review fees) are based upon the projection of twenty (20) new homes in 2018 and remodeling activity similar to 2017.

Fines - \$65,000

Tickets and fines issued by the Town police are a function of the level of police staff maintained during the year. We anticipate that 2018 revenues will remain similar to our current projection for 2017. These amounts include revenues generated through the issuance of tickets within the Town of Bow Mar ('Bow Mar').

Intergovernmental Revenues

Bow Mar Public Safety IGA

Effective January 1, 2014, the Town renewed its intergovernmental agreement with Bow Mar for a five year term and continues to assume the responsibility for public safety and municipal court activities for that town. In connection with this and the prior agreement and for providing these services, Bow Mar will have paid the Town \$268,216 in 2017 and will pay \$276,800 for 2018. The payments for 2017 and 2018 are calculated based upon a formula using the then current consumer price index change. The agreement also provides that the Town will refund a portion of this fee in the event the Town is unable to maintain a total police force of six officers for the entire calendar year. There was no refund required under this provision for 2016, and none is projected for 2017.

Bow Mar Building Department IGA

Effective in October, 2017, the Town entered into a new intergovernmental agreement with Bow Mar to provide certain administrative services associated with their building department functions. The fee for these services was \$40,000 in 2017 and will remain the same for 2018.

Other

Where available, intergovernmental revenues are estimated based upon information and estimates provided by the governmental agencies. Other estimates are made based upon prior year actual revenues. The Colorado Municipal League provides the estimate used for Highway User Tax (Motor Fuel Tax).

- State Highway Users Tax 2017 projection is \$42,000; 2018 budget is \$46,000
- County Highway Mill Tax 2017 projection is \$12,000; 2018 budget is \$12,000
- Cigarette Tax Apportionment 2017 projection is \$800; 2018 budget is \$800
- Motor Vehicle Registration Fees 2017 projection is \$6,000; 2018 budget is \$6,000

Interest - \$15,500

The estimate for Town funds to be invested during 2018 is an average of \$1,250,000 at an estimated weighted interest rate of 1.24%.

Other - \$5,000

Other revenues include small receipts, miscellaneous in nature, which are received each year.

Sources of Fund Decreases

Public Safety - \$684,500

Public safety costs include both Town police expense and the expense of operating its municipal court. The Town intends to employ six full time and two part-time police officers in 2018 to accommodate its expanded coverage area, which includes Bow Mar. Costs include salaries and benefits, uniforms, training, vehicle expense (four owned vehicles) and supplies. Municipal court costs are projected to remain at the projected 2017 level. Since 2008 the Town has been subject to an annual charge from Arapahoe County for providing dispatch and other services. These services had been provided in the past at no cost to the Town. The annual charge was \$26,380 in 2017 and will increase to \$28,869 in 2018.

Sanitation - \$84,000

The Town contracts with Republic Services for trash removal. A new contract executed in 2017 is for a three year term with a 3% annual increase beginning in 2018. This overall fee has increased in recent years as a result of new home construction in the Town.

Administration - \$652,000

Costs that are considered part of administration and their percentage to total administration costs are as follows:

		<u>2017</u>	<u>2018</u>	
•	Town office salaries and benefits	43%	40%	
•	Legal, accounting and audit	15%	11%	
•	Insurance	5%	5%	
•	Building inspection fees	14%	23%	
•	Town Hall maintenance and utilities	9%	9%	
•	Other	14%	12%	

Office salaries include three full time employees. Included in benefits are the cost of health insurance and a pension plan.

Legal fees are very dependent upon activities occurring within the Town. The primary need for legal services in 2018 will be preparation for and attendance at regular meetings of the Town Trustees. We also pay our Treasurer (non-volunteer position) a fixed fee of \$750 per month for services. We incurred a modest increase in the cost of the annual audit of the Town in 2017 due to the continuing integration of several recently expanded reporting requirements. We expect this fee to remain the same in 2018.

Insurance costs, other than health insurance, are estimated to increase approximately 5% in 2018. Our insurance carrier is Travelers Insurance. Our Workman's Compensation insurance carrier is Pinnacol Assurance.

Building inspection fees are very dependent upon new construction within the Town. The budget for 2018 assumes a normal level of inspections and plan reviews associated with remodeling in the Town and the aforementioned twenty (20) new homes to be constructed in 2018.

Town Hall maintenance and utilities include normal occupancy costs associated with office space including, but not limited to, water, power, lighting, janitorial services, lawn maintenance, and cleaning supplies.

Other costs include the issuance of periodic newsletters and/or flyers, a Town directory, publication of official notices, election expenses (generally in even years only), office supplies, computer expenses and community functions (shredding event, summer concert series, 4th of July festivities).

Planning & Zoning - \$69,000

The costs included in this category are all associated with mapping, zoning and developing property within the Town. Incremental costs associated with requests from developers to review and approve new projects within the Town are generally recovered from the developers. The budget for 2018 takes into account the current development activity (two active developments) in the Town. A portion of these costs may be recovered if there is significant activity in planning the active developments within the Town.

Public Works - \$440,000

Town property maintenance costs include street and gutter maintenance and repair, snow removal, street lighting, road striping, park maintenance and maintenance and repairs associated with Town equipment. The Town has projected the fifth year of a multi-year street improvement project to be overseen by our consulting engineering firm. We have budgeted \$350,000 towards this effort for 2018. For 2018, the Town has determined to continue to handle snow removal services internally, relying on our full-time public works manager and additional part-time help, as necessary. This new public works manager will also devote time to property maintenance and repair. Some services, such as street cleaning and sealing are contracted from the City of Littleton or other third-party vendors.

General Fund Reserve Activity

Arapahoe County Open Space Shareback Fund – Receipts - \$33,000 and expenditure - \$7,500 This new fund was established in 2005 to receive a portion of the .25% sales tax enacted in Arapahoe County in 2005 to provide funding for local open space projects. These funds are generally available for the purchase and maintenance of new open space lands within our municipality. As these funds become significant, the Town Trustees will identify and pursue projects which will be appropriate for these funds. In 2018 the Town will participate in the Chatfield Dam Water Enhancement project at a cost of \$7,500 by acquiring one acre-foot of water.

Conservation Trust Fund – Receipts - \$ 6,000 and expenditures - \$20,000

The Conservation Trust Fund receives annual proceeds from the state lottery profits. Columbine Valley is one of more than 400 cities, towns, counties and special recreation districts to receive a portion of these funds. Distribution is based upon population. The use of these funds is restricted to park and recreation spending and is currently dedicated to maintenance of the park surrounding the Town Hall. In 2018 we will do a major enhancement of the park area in front of the Town Hall.

Capital expenditures - \$19,000

The capital expenditures projected for 2018 consist of the first year of a multi-year project to replace and upgrade all of the light pole in the Town.

Reserve Balance

Reserves (Fund Balances) at the beginning of 2017 were \$1,516,614. Activity for 2017 and 2018 is expected to decrease the reserve balance to \$1,308,114 including unrestricted reserves of \$859,006. A desirable reserve balance is an amount equal to one year's budgeted recurring operating expenditures, or approximately \$1,650,000, which will require continued vigilance by the Town Trustees to control operating costs as well as capital spending.

Title:

Wild Plum Service Plan IGA re: Hunter Run Maintenance

Presented By:

J.D. McCrumb, Town Administrator

Prepared By:

J.D. McCrumb, Town Administrator

Background:

On August 18, 2017 the Board of Trustees approved the Service Plan for the Wild Plum Metro District subject to resolution of the issue concerning the maintenance of Hunter Run Lane and reflection of the same in the final IGA form attached to the Service Plan.

This condition was in response to concerns raised by the Polo Meadows HOA about the metro districts commitment and/or ability to maintain the landscaping along Hunter Run to the standards currently set by the Town and expected by the Polo Meadows homeowners.

The Town of Columbine Valley currently spends approximately \$24,000 in expenditures and staff time per year on the quarter-mile long Hunter Run Lane. This is due in part to the unique characters of the street, including landscaped island and lighting fixtures, and to the need to contract the maintenance of the extensive right-or-way.

Per the Wild Plum Construction Management Plan, approved by the Trustees in August, Town staff will play an extensive oversight role in the upkeep and maintenance of this road throughout the construction of the Wild Plum development, regardless of who maintains Hunter Run landscaping.

Town right-of-way throughout the rest of Columbine Valley is maintained by HOAs or private residences and staff has found no difficulties working with these stakeholders in the upkeep of these spaces. Likewise, staff has no reason to anticipate any problems working with the metro district in the future in the upkeep of Hunter Run Lane, should the IGA be approved as drafted.

Attachments:

Proposed IGA between Town and WP Metro District

Fiscal Impacts:

Annual savings of approximately \$12,000 of general fund expenditures and \$12,000 of staff time that can be reallocated on Town projects and operations.

Staff Recommendations:

Approve the IGA between the Town of Columbine Valley and Wild Plum Metropolitan District as drafted and presented on August 18, 2017.

INTERGOVERNMENTAL AGREEMENT BETWEEN THE TOWN OF COLUMBINE VALLEY AND WILD PLUM METROPOLITAN DISTRICT

THIS AGREEMENT is made and entered into by and between the TOWN OF COLUMBINE VALLEY, a municipal corporation of the State of Colorado ("Town"), and WILD PLUM METROPOLITAN DISTRICT, a quasi-municipal corporation and political subdivision of the State of Colorado (the "District").

RECITALS

WHEREAS, the District was organized to provide those services and to exercise powers as are more specifically set forth in the District's Service Plan approved by the Town August 15, 2017, as amended from time to time ("Service Plan"); and

WHEREAS, the Service Plan and Title 18 of the Municipal Code of the Town of Columbine Valley require the execution of an intergovernmental agreement between the Town and the District; and

WHEREAS, the Town and the District have determined it to be in their best interests to enter into this Intergovernmental Agreement;

NOW, THEREFORE, for and in consideration of the covenants and mutual agreements herein contained, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

COVENANTS AND AGREEMENTS

- 1. <u>Incorporation by Reference</u>. The Service Plan and Title 18 of the Municipal Code of the Town of Columbine Valley Code (the "Special District Code") are hereby incorporated in this agreement by this reference, and all capitalized terms not otherwise defined herein shall have the meanings given to them in the Service Plan. The District agrees to comply with all provisions of the Service Plan and the Special District Code.
- 2. Open Space. Tracts K, L, M and N in the Wild Plum Final Plat are currently owned by the District (the "Open Space"). The Open Space is subject to that easement agreement dated August 29, 1986 and recorded in the Arapahoe County Real Property records at Book 5979, Page 222 (the "Easement"). The Easement requires, *inter alia*, that changes in grading, impacts on ponding and dykes and any improvements associated therewith by submitted to the United States Army Corps of Engineers (the "USACE") and other state, federal and local governments for review and approval (the "Governmental Approvals"). Tracts K. L, M and N are being modified by the addition of trails and other improvements in conjunction with the Wild Plum Development which will require Governmental Approvals that have not yet been obtained. The District shall work with the Wild Plum developer to diligently and expeditiously pursue the Governmental Approvals, and the District or the developer of Wild Plum shall pay all costs and

expenses associated with the Government Approvals. The District shall keep the Town advised during the processing of the Government Approvals.

Within thirty (30) days of the date that the District, or the developer of Wild Plum, has received all necessary Government Approvals for the Open Space, the District shall convey the Open Space to the Town via special warranty deed. The Town shall be entitled to all legally available remedies to enforce the right to receive a special warranty deed to the Open Space as provided herein, including but not limited to the right of specific performance. In the event the Town is required to exercise its remedies to obtain said deed to the Open Space, the District shall pay all Town costs, including attorney fees, associated with the Town's exercise of its remedies.

- 3. The Parties agree the Open Space shall be operated and maintained by the District as follows:
- a. <u>License</u>. Immediately following the District's conveyance of the Open Space to the District, the Town shall grant the District a license in the form attached hereto as <u>Attachment A</u> (the "License") to permit the District to operate and maintain the Open Space.
- b. <u>Maintenance Obligation and Standards</u>. The District shall manage, operate, maintain, repair, and rehabilitate the Open Space, including, without limitation, all permitting including future Governmental Approvals and any trails located thereon, pursuant to and in accordance with the Approved Development Plan, the Service Plan, the Easement and this Agreement. Maintenance of the Open Space shall be performed in a manner commensurate with the quality of the Town in general and according to best practices in the Denver metropolitan area. The District's management and administration of the Open Space shall cause use of the Open Space to be in compliance with all applicable laws and regulations, including, but not limited to, those adopted by the Town.
- c. <u>Rules and Regulations</u>. The District shall promulgate rules and regulations for the management of the Open Space (the "Rules and Regulations"). The Rules and Regulations shall permit public access to the Open Space for safe and aesthetically pleasing use in a manner harmonious with the nature of the Town and the Wild Plum development and that avoids overburdening the Open Space. The Rules and Regulations shall be subject to review and approval by the Town and shall not become effective until approved by the Town.
- d. <u>Budget</u>. The District shall prepare a separate budget for the ongoing operation and maintenance of the Open Space (the "Open Space Budget"). No later than July 31 annually, the District shall submit the Open Space Budget to the Town for review and comment.
- 4. <u>Hunter Run Lane</u>. The District shall, on or before December 31, 2017, assume the obligation to operate, maintain and replace all landscaping (including irrigation planting, mowing and weeding) and lighting in all areas of Town right-of-way for the entire length of Hunter Run Lane. Such operation and maintenance shall be performed in a manner commensurate with the quality of the Town in general and according to best practices in the Denver metropolitan area. The street, curb and gutters for Hunter Run Lane will be operated and maintained by the Town, such operations to include snow plowing.

- 5. <u>Insurance</u>. The District shall secure and maintain for the term of this agreement adequate insurance coverage from companies licensed in the State of Colorado as will protect itself and the Town, and each of its trustees, employees, agents, and consultants from claims of personal injury, death, and property damage, which may occur on or in connection with the Open Space. The Town and its trustees, officers, employees, and agents shall be named as an additional insured on the District's insurance policy. To provide evidence of the required insurance coverage, copies of certificates of insurance shall be furnished to the Town.
- 6. Indemnification. To the extent permitted by law, the District shall indemnify, defend and hold harmless the Town and each of its trustees, employees, agents and consultants (collectively the "Indemnitees"), from and against any and all claims, demands, suits, actions, proceedings, judgments, losses, damages, injuries, penalties, costs, and expenses (including reasonable attorneys' fees), and liabilities of, by or with respect to, third parties to the extent they arise from or may be alleged to arise, directly or indirectly, in whole or in part, from the intentional or negligent acts or omissions of the District or any of its subcontractors, agents or employees, or the agents or employees of any subcontractors, in connection with this agreement or which causes or allows to continue a condition or event which deprives the Indemnitees, as applicable, of its sovereign immunity under the Colorado Governmental Immunity Act, Sections 24-10-101, et seq., C.R.S., as amended from time to time. Provided, however, that the District shall not be liable for any claim, loss, damage, injury or liability arising out of intentional or negligent acts or omissions of the Indemnitees. The obligations of this Section shall survive termination or expiration of this agreement. The District's obligations hereunder shall be to the fullest extent permitted by law and nothing in this agreement shall be construed as requiring the District to defend in litigation, indemnify, or insure the Town against liability for damage arising out of the death or bodily injury to persons or damage to property caused by the negligence or fault of the Town or any third party under the control or supervision of the Town.
- 7. <u>Bankruptcy Limitation</u>. All of the limitations contained in the Service Plan and this agreement, including, but not limited to, those pertaining to any maximum mill levy the District is permitted to impose, have been established under the authority of the Town to approve a Service Plan with conditions pursuant to Section 32-1-204.5, C.R.S. It is expressly intended that such limitations:
- a. shall not be subject to set-aside for any reason or by any court of competent jurisdiction, absent a Service Plan amendment; and
- b. are, together with all other requirements of Colorado law, included in the "political or governmental powers" reserved to the State under the U.S. Bankruptcy Code (11 U.S.C, Section 903) and are also included in the "regulatory or electoral approval necessary under applicable nonbankruptcy law" as required for confirmation of a Chapter 9 Bankruptcy Plan under Bankruptcy Code Section 943(b)(6).
- 8. <u>Enforcement</u>. The parties agree that this agreement may be enforced in law, or in equity for specific performance, injunctive, or other appropriate relief. The parties also agree that this agreement may be enforced pursuant to Section 32-1-207, C.R.S. and other provisions

- of Title 32, Article 1, C.R.S., granting rights to municipalities or counties approving a service plan of a special district. The District also hereby agrees that the Town may enforce the District's obligations in Paragraph 3 regarding obtaining Governmental Approvals and conveying the Open Space to the Town by specific performance.
- 9. <u>Entire Agreement</u>. This agreement constitutes the entire agreement between the parties and supersedes all prior written or oral agreements, negotiations, or representations and understandings of the parties with respect to the subject matter contained herein.
- 10. <u>Amendment</u>. This agreement may be amended, modified, changed, or terminated in whole or in part only by a written agreement duly authorized and executed by the parties hereto.
- 11. <u>Governing Law; Venue</u>. The internal laws of the State of Colorado shall govern the interpretation and enforcement of this agreement, without giving effect to choice of law or conflict of law principles. The parties hereby submit to the jurisdiction of and venue in the district court in Arapahoe County, Colorado. In any proceeding brought to enforce the provisions of this agreement, the prevailing party therein shall be entitled to an award of reasonable attorneys' fees, actual court costs and other expenses incurred.
- 12. <u>Beneficiaries</u>. Except as otherwise stated herein, this agreement is intended to describe the rights and responsibilities of and between the named parties and is not intended to, and shall not be deemed to confer any rights upon any persons or entities not named as parties.
- 13. <u>Effect of Invalidity</u>. If any portion of this agreement is held invalid or unenforceable for any reason by a court of competent jurisdiction as to either party or as to both parties, such portion shall be deemed severable and its invalidity or its unenforceability shall not cause the entire agreement to be terminated.
- 14. <u>Assignability</u>. Neither the Town nor the District shall assign their rights or delegate their duties hereunder without the prior written consent of the other party.
- 15. <u>Notices</u>. All notices, certificates or other communications hereunder shall be sufficiently given and shall be deemed given when given by hand delivery, overnight delivery, mailed by certified or registered mail, postage prepaid, delivered electronically (if confirmed promptly telephonically) or dispatched by telegram or telecopy (if confirmed promptly telephonically), addressed to the following address or at such other address or addresses as any party hereto shall designate in writing to the other party hereto:

Title:

2018 Budget Request – Gov Pilot Software

Presented By:

J.D. McCrumb, Town Administrator

Prepared By:

Stephanie Thelen, Building Department Coordinator

Background:

Since 2004, the Town's building department has operated using a combination of handwritten/paper documents and a Microsoft Office software program built in-house by Chief Cottrell. While functional, the current method has numerous drawbacks as outlined in the

attached memo.

In 2017 staff identified both the necessary and optional software needs of the building department, as well as the functions of communications, code enforcement and public works. Multiple software platforms were reviewed and a recommendation has been

identified for consideration by the Board of Trustees.

As requested by the Trustees at the September meeting, staff has reached out to several cities and towns currently utilizing this software and received favorable references. Additionally, Gov Pilot extended the 2017 prices until October 20th as requested by the Town

allowing additional time for consideration.

Memo discussing Gov Pilot Recommendation

Gov Pilot Subscription Agreement

Fiscal Impacts:

\$10,000 per year subscription fee, plus an additional \$2,000 if the

Municipal Court package is added.

Staff Recommendations:

Staff recommends approval of the Gov Pilot package as presented for

inclusion in the 2018 Town Budget.

Recommended Motion(s):

"I move to include Gov Pilot in the 2018 Town Budget in the amount

of \$10,000/\$12,000 and to sign the subscription agreement on or

before October 20, 2017.

DATE: September 13, 2017

TO: Board of Trustees

FROM: Stephanie Thelen

SUBJECT: GovPilot Software

This request is for your consideration for the 2018 Budget

Why do we need this?

The town currently issues building permits through a software program called Microsoft Access; the database was created by Chief Cottrell in 2004, and continues to be maintained by him. All building permits and demo permits are issued and tracked in paper form.

Some shortcomings of the software are:

- o Lack of custom reporting
- o The software is one dimensional, provides only one aspect of multiple building department needs
- o Because it has one function it does not allow for complete digital records
- Chief Cottrell wrote the database in 2004 and because he is the author of the database, he is the only person on staff that can troubleshoot or repair the program.
 If it fails while Chief Cottrell is on vacation or otherwise unavailable, the program is then rendered useless.
- Because the database was created 13 years ago there are challenges to accessing the database in newer operating systems and versions of Access.
- o The database is becoming more complicated to edit, upgrade or the general support of the database.

How did Town Staff reach this solution?

Town Staff started by evaluating functional town needs across multiple departments

- o Building department
- o Public works
- o Communication
- o Code Enforcement

Town staff compared four software systems based on the predetermined criteria and ultimately chose GovPilot as it offered the most of what we were looking for.

What does it offer the Town?

- Building Department
 - o Real time reporting, mobile based
 - o Reduced phone calls to the office
 - o Applications and registration can be done at any time by citizens and contractors
 - Permit applications and inspections are automatically digital, reducing the need to scan documents.
 - Customizable reporting
 - Real time inspection results available to citizens and contractors
- Public Works
 - o Global Positioning System (GPS) / Address Map
 - Inventory tracking
 - Gutter pans
 - Street signs
 - Lamp poles
 - Street Cuts
 - Town land/ Trees
 - Tracked Ownership and maintenance
 - Mobile based
 - o Residents will be able to report flooding, ice, snow pack with pictures.
 - o Requests/concerns would automatically be routed to the Public Works Department in real time.
- Code Enforcement
 - o Global Positioning System (GPS)/ Mapping
 - o Upload pictures supporting enforcement violations
 - Can access violations by address
 - o Dog licensing is something we could visit in the future
 - o Town ordinances would be uploaded into system and entering violations would be seamless. Can generate violation report on the spot if wanted/needed.
- Communications
 - o One database for citizen contact information
 - App that can be downloaded to mobile device so citizens will be able to contact Town Hall from anywhere.
 - Send mass texts to residents for emergencies and non-emergencies (Future capability)
 - Send mass email to residents for emergencies and non-emergencies (Future capability)
- Court Database
 - We have the option to add municipal court functions/database

How will this software help staff, residents and contractors?

- o Automatic and complete digital files
- o Web Access to submit applications Available 24/7
 - For Citizens
 - For Staff
 - For Contractors
- Track progress of requests
 - We have many requests for action per week, any one on staff may take the call, and initiate, but not complete the action. That action is known only to the original author. This system will integrate all departments.

The GovPilot software system would cost \$10,000 per year (Price locked in until October 1, 2017) with the option to add the municipal court database for an additional \$2,000 per year. This annual price is locked in for 3 years. Our subscription agreement includes the following.

- o GovPilot would start building out our processes upon signing the agreement but would not bill us until January 1, 2018
- We would own the data. Should we decide to break off with GovPilot, all stored data would belong to The Town of Columbine Valley.
- o Unlimited customer support from GovPilot
- o Unlimited users. Every member of town staff has access to the system without additional cost.
- Features within the Global Positioning System (GPS)
 - Property Type
 - Ownership Information
 - Property Sales Data
 - Property Tax Data
 - Traffic Layer
 - Google Street View (Where available)
 - Google Aerial View (Where available)

- f. Severability. If any term, condition, or provision in this Agreement is found to be invalid, unlawful or unenforceable to any extent, the Parties will endeavor in good faith to agree to such amendments that will preserve, as far as possible, the intentions expressed in this Agreement. Trustee Bill #2, Series of 2017: Utility Infrastructure Follow-up

Presented By:

Lee Schiller, Town Attorney

Prepared By:

Lee Schiller, Town Attorney

Background:

During the 2017 Legislative Session, the state legislature passed HB17-1193, concerning the installation of small wireless

infrastructure within local government jurisdictions. The law includes provisions extending expedited permitting processes applicable to broadband facilities to small cell facilities, providing for right-of-way

access for small cell facilities, providing broadband and

telecommunication providers with the right to locate facilities on light poles, traffic signal poles and other utility poles and limiting a local jurisdiction's ability to regulate broadband and telecommunications

facilities. HB17-1193 is effective on July 1, 2017.

The Board of Trustees passed an ordinance temporarily prohibiting the installation of new antennas, small cell facilities, towers and wireless service facilities until November 1, 2017 at their Regular

Meeting in June, 2017.

At the October 17, 2017 Regular Meeting, an ordinance will be presented for Trustee consideration outlining reasonable regulations

to implement HB17-1193.

Brookhaven at Columbine Valley-Replat

Presented By:

Phil Sieber, Town Planner

Prepared By:

Phil Sieber, Town Planner

Background:

At the Trustees meeting last month we presented an information only report on the need to amend the Brookhaven Final Plat. The staff is now requesting that the Trustees approve the replat.

In November, 2002 the Board of Trustees approved an administrative amendment to the plat of Brookhaven in order to correct some errors on the original plat. The Board approved the following: a "Vacation Plat" that vacated all the original easements, followed by a "Correction Plat" a replat that contained the correct easement descriptions. When the two documents were recorded, the "Correction Plat" was recorded first followed by the recording of the "Vacation Plat". The result was the vacation of the correct easements that had just been recorded. The sequence of recording the two documents should have been reversed.

Fortunately, this did not create an immediate problem because the County records showed the correction plat as the official subdivision. A problem rose recently when Urban Drainage discovered the vacation action and became very concerned. The Town staff researched the issue and informed Urban Drainage that we would try and correct the problem. That is the purpose of this 2nd Administrative Amendment.

This amendment contains the correct easement descriptions. In addition, the staff is recommending that the Standard Notes be revised and that the plat contain a Tract Summary Chart which specifies the size, ownership and maintenance responsibility for all the easements (Tracts) in Block 3 of the subdivision.

The draft replat was referred to the Brookhaven HOA and on September 29th we met with representatives of the Brookhaven HOA Board. They have reviewed the draft replat. There were minor errors noted and those will be corrected. The major issues were:

- 1. Tract F is the Tract containing the pump house and is owned by Columbine W&S District. They have not been maintain the entire Tract and the HA would like this rectified.
- 2. There is a Standard Note relating to sight triangles at intersections. That note was not on the original plat and the HOA

is concerned that addition of the note may create non-conforming features. The staff has done a field check and found <u>I</u> intersections that would not comply (list). We have asked the Town Attorney to draft language that would avoid the non-compliance issue.

- 3. Special Note # 8 is the note that granted two points of access across Tract B to what is now Willowcroft Manor. The Brookhaven HOA states that this obligation was satisfied by the Emergency and Driveway Access Easement granted to Willowcroft (there is language in that easement that says it satisfies the obligation for both access points set forth in the Brookhaven notes). The staff has no problem with amending the note to show that the obligation has been satisfied but we feel that the HOA position should be verified by the Town Attorney.
- 4. The HOA has raised the questions as to whether we are amending Block 3 only or does the amendment apply to all of Brookhaven (Blocks 1, 2 and 3). The only changes are in Block 3. Therefore the staff feels the Amendment should read "A REPLAT OF BLOCK 3, BROOKHAVEN AT COLUMBINE VALLEY"

Attachments:

Brookhaven Replat

Staff Recommendations:

The staff recommends approval subject to:

- 1. The staff to notify Columbine Valley W&S District as to their maintenance responsibility on Tract F.
- 2. Subject to the opinion of the Town Attorney, Special Note 8 should be amended to state that the obligation to provide two points of access across Tract B has been satisfied.
- 3. If necessary, a Special Note should be added that would grandfather any intersections that to not comply with the Site Triangle requirement. The grandfather clause would not apply in the corners were re-landscaped.
- 4. Correction of the minor errors noted by the HOA.

Recommended Motion(s):

"Move to approve the 2nd Administrative Amendment to the plat of Brookhaven at Columbine Valley with conditions listed in the staff report.

Title: Utility Area – South of Wilder Lane

Presented By: Brent Kaslon, Assistant Town Planner

Prepared By: Brent Kaslon, Assistant Town Planner

Background:

The utility area south of the Wilder Lane monument sign is unsightly and the Trustees requested that staff consider possibilities for the area. Staff has come up with some recommendations to clean the area up and help screen the boxes. These improvements include a low fence that would block some of the boxes (but not the full

height), adjacent landscaping that would create a planted "wall", and

painting the boxes.

Fence Option: The fence would need to be low enough not to interfere with the sight distance triangle at the entrance to Wilder Lane. Lastly, the fence would need to be installed in a way that utility workers can still have clear space to access the boxes, which may be hard to achieve.

Landscape Option: Landscape options include planting a "wall" of ornamental grasses with other plantings where we have clear access to do so. The landscape approach would allow for utility workers to access the boxes. The proposal would extend the existing bed at the South Wilder Lane property line and bring rock mulch throughout the utility area. Strategic planting would be designed per the guidelines of the utility companies.

Painting Option: Painting the boxes a consistent color will help to hide them. It is recommended that this option be selected in combination with either the fence option or landscape option. Painting should be done regardless of additional screening to add uniformity.

Conclusions: The Town will need to get approval from the utility companies if we chose to fence the area and they may or may not approve the location. We will also need to check with them prior to painting. We will not necessarily need to get the approval of the utility companies to landscape the area if the Town follows their guidelines.

Fencing Exhibit

Landscape Plan Exhibit Estimates of Probable Cost

Fiscal Impacts:

The Town would need to cover the costs of the improvements.

To add fencing only our estimate of probable cost is approximately

\$6,000

To add landscape only our estimate of probable cost is approximately

\$5,000.

Staff Recommendations:

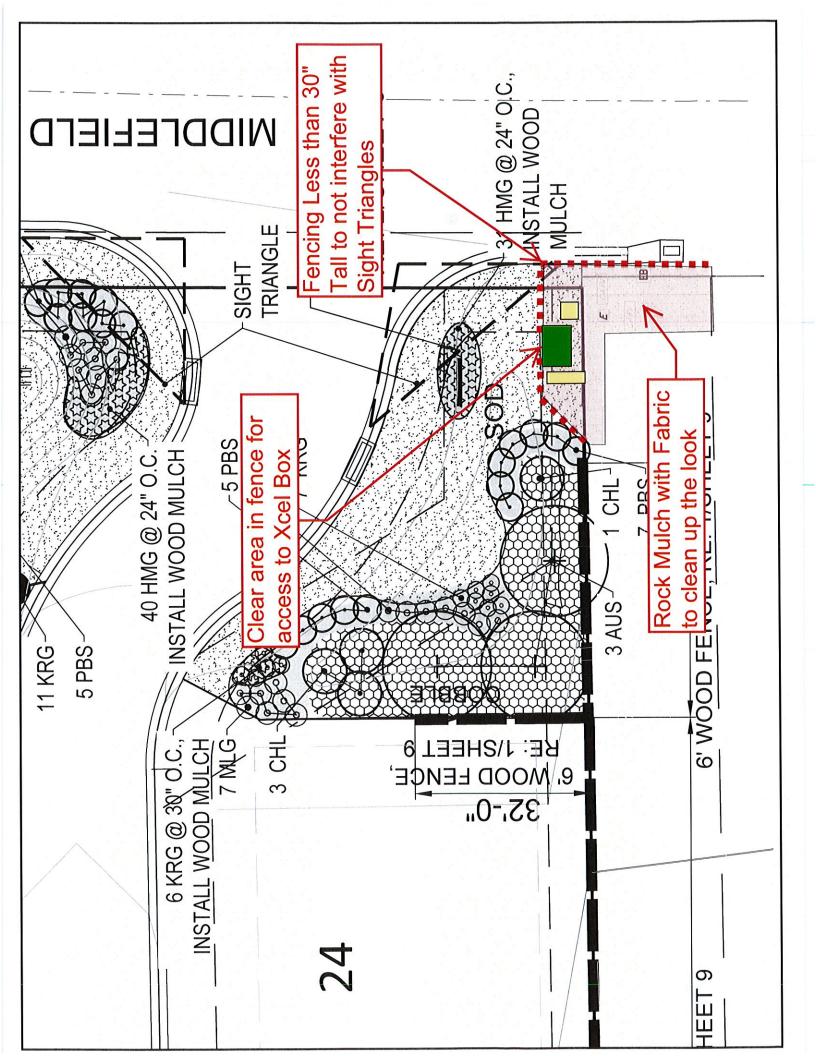

The area needs to at least be regraded and have rock mulch added to clean up the area. The boxes should also be painted at a minimum to help to create a uniform look. If more needs to be done, staff recommends that the landscape option be used as it is less money but also is more easily assessable to the utility companies and less likely to be damaged by frequent use by the utility workers.

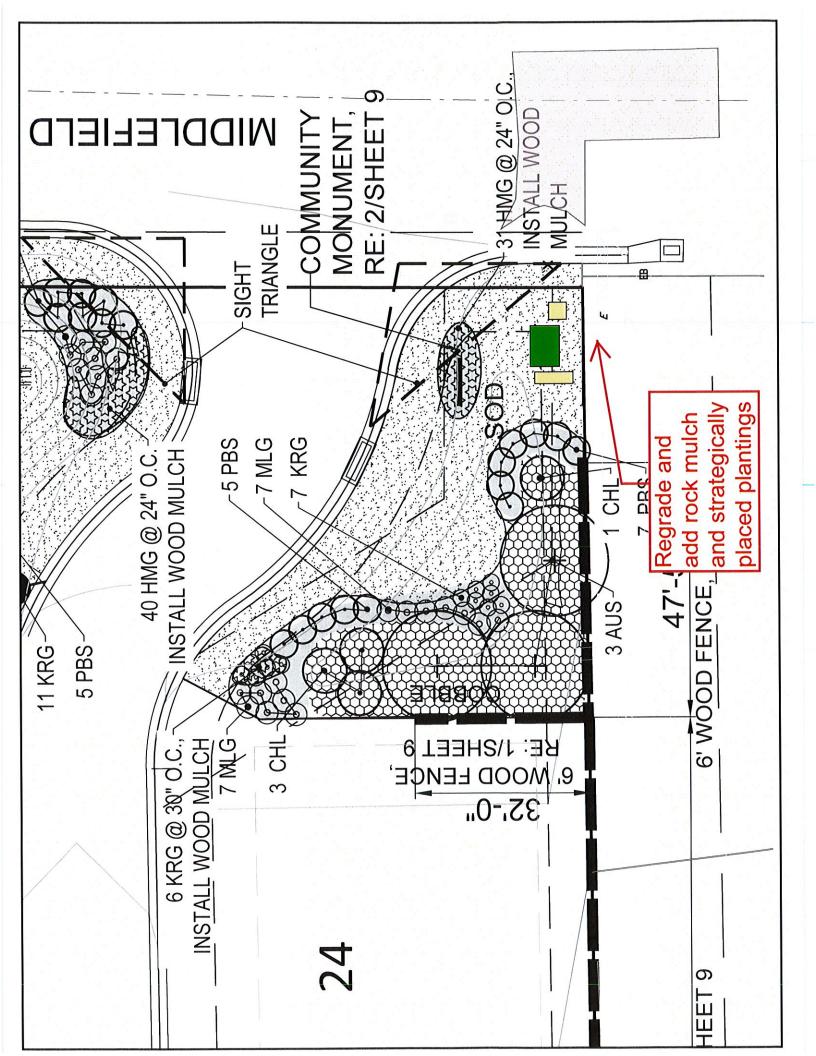

Recommended Motion(s):

"I move to allocate \$3,000 in the 2018 budget to regrade and add rock mulch to the 'Wilder Lane utility area' and to paint the equipment to create a uniform look."

Or

"I move to allocate \$5,000 in the 2018 budget to implement the landscape option as presented to 'Wilder Lane utility area'."
