Title: Re-adopt 3-Mile Plan

Presented By: Brent Kaslon, Town Planner

Prepared By: Brent Kaslon, Town Planner

Background: In 2019, the Town completed a rigorous Master Planning effort that

concluded with a comprehensive vision moving forward into a new decade. With the approval of the 2020 Master Plan, it was directed that the Town complete a three-mile plan. This three-mile plan shows the area of influence of a town and is required by state statute for any future annexation. The 3-Mile Plan shows the area in which the Town can expand and how services will be provided. The 3-Mile Plan was first adopted by the Trustees in April, 2021; the plan must

be re-adopted every year.

Attachments: 3-Mile Plan

Staff Recommendations: Approve as presented

Recommended Motion: "I move to approve the 3-Mile Plan as presented as part of the

consent agenda."

Town of Columbine Valley

Three Mile Plan

This document constitutes the Three-Mile Plan for the Town of Columbine Valley, as required by and in conformance with Section 31-12-105(1)(e) of the Colorado Revised Statutes (C.R.S.). This document is adopted as an addendum to the Town's Master Plan and updated annually.

Introduction

The intent of this document is to comply with the requirements of The Municipal Annexation Act of 1965 as amended and Section 31-12-105(1) (e), C.R.S. The state statute limits municipal annexations to no more than "three miles in any direction from any point of such municipal boundary in any one year." Contiguity is also required by Section 31-12-104(1)(a), C.R.S., and is achieved by annexing a platted street or alley, public or private right-of-way, a public or private transportation right-of-way or area, or a lake, reservoir, stream, or other natural or artificial waterway.

Section 32-12-105(1)(e), C.R.S., requires that prior to annexing any property within the three-mile limit, a municipality shall have in place a plan that generally describes the following:

Location, character, and extent of proposed streets, subways, bridges, waterways, waterfronts, parkways, playgrounds, squares, parks, aviation fields, other public ways, grounds, open spaces, public utilities, and terminals for water, light, sanitation, transportation, and power to be provided by the municipality; and proposed land uses for the area.

The state statute requires that this Three-Mile Plan be updated or re-adopted on an annual basis.

Three-Mile Plan

The Town of Columbine Valley's Three Mile Plan Map shows a three-mile buffer and includes existing roadways, other transportation corridors, public spaces, water ways, and surrounding municipal boundaries. The map gives a large overview of the 3-mile limits. This map serves as a tool to guide the evaluation of annexation proposals and their potential impacts. Major transportation corridors and surrounding municipal boundaries including town limits, county limits and open space areas are also shown on this map. The unincorporated portions of Arapahoe County, Douglas County and Jefferson County within three miles of the Town of Columbine Valley boundary are legally obtainable for annexation pursuant to Section 31-12-105(1)(e), C.R.S.

Existing Town of Columbine Valley, Arapahoe County, Douglas County and Jefferson County zoning regulations will be considered for potential land uses within the Town of Columbine Valley and the three-mile limit for annexation by the City. If any land within the three-mile area is proposed to be annexed in the future, specific proposals should be reviewed with some consideration for County-adopted plans as well as applicable approved subarea plans.

Utilities

Natural gas and electric utilities are provided by Xcel Energy within Town of Columbine Valley and within the three-mile limit for annexations. Due to the existing infrastructure within the 3-mile area, it is predicted that sufficient supplies and distribution systems for natural gas and electricity are available to serve development within the three-mile area. CenturyLink and Comcast provide communication service.

Public Improvements and Services

Public services, public improvements, and public infrastructure within Town of Columbine Valley and the three-mile limit are provided by Platte Canyon Water and Sanitation District, Southwest Water and Sanitation District, Columbine Water and Sanitation District and other Denver Water subsidiaries, South Suburban Parks and Recreation, numerous special districts, including metropolitan districts, and water and sanitation districts. It is expected that in most cases, to the extent that public improvements are not available to serve areas annexed to the Town, these special districts, including metropolitan districts, will be the vehicles to guide the construction or the acquisition of the necessary infrastructure and provide these public services.

Water and sanitation service providers within the three-mile limit include Denver Water, Southwest Metro Water and Sanitation District, South Arapahoe Sanitation District, Columbine Sanitation District, Centennial Water and Sanitation District, Dominion Water and Sanitation District, Grant Water and Sanitation District, Southgate Water and Sanitation District, City of Englewood, and Cherry Hills Village.

First responder services including police services, fire protection, emergency medical and ambulance service is provided to the Town of Columbine Valley and the area within the three-mile limit by Columbine Valley Police Department, South Metro Fire Rescue Authority, and the West Metro Fire Protection District.

Park and recreation facilities are provided to the Town of Columbine Valley and the area within the three-mile limit by the Town of Town of Columbine Valley, City of Littleton, South Suburban Parks and Recreation, Foothills Parks and Recreation, Jefferson County, Douglas County, City of Sheridan, City of Englewood, Denver Parks and Recreation, Highlands Ranch Metropolitan District and Colorado State Parks (Chatfield State Park).

Library services are provided to the Town of Columbine Valley and the area within the three-mile limit by the Arapahoe Library District, City of Littleton, and Jefferson County Public Library.

Transportation

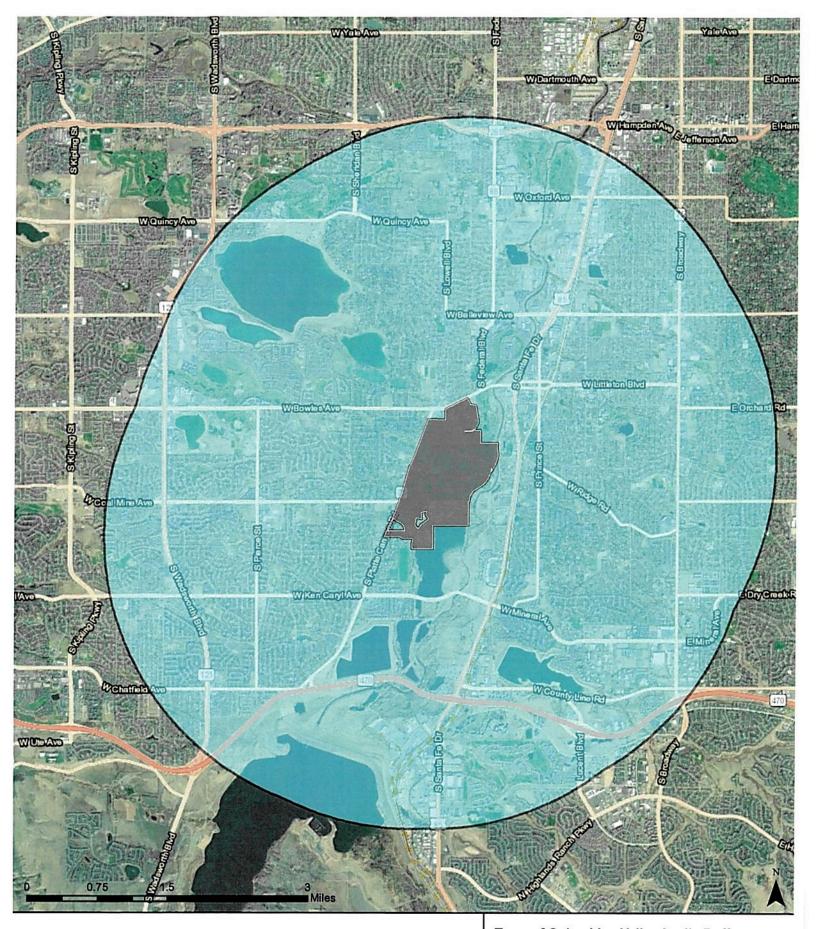

The Town of Columbine Valley and areas within the three-mile limit are currently accessed by several existing transportation systems, including US Highway 285, US Highway 85 (Santa Fe Drive), Colorado State Highway 470 (C-470) and the Regional Transportation District's southwest corridor light-rail line.

Major roadway corridors serving the Town of Columbine Valley and the area within the three-mile limit include West Bowles Avenue, West Mineral Avenue/Ken Caryl Avenue, South Platte Canyon Road/Lowell Boulevard, West Belleview Avenue, South Pierce Street, West Coal Mine Avenue, South Broadway, South Federal Boulevard, and South Wadsworth Boulevard.

Summary

The Town of Columbine Valley and within the annexation area in three-mile limit by the Town consists of an established system of roadways and multi-modal transportation networks and facilities, public spaces, utilities, public services, and drainage infrastructure. Many special districts are also used to support and provide public services to areas within the Town of Columbine Valley and in the area within the annexation boundary. In cases where the Town of Columbine Valley cannot provide all the required services, existing properties and new developments within the three-mile area may need to rely on services provided by contracts with special districts and/or other jurisdictions. Special districts will be considered to serve newly annexed areas. Generally, it is anticipated that there will be sufficient capability to provide utility and public services and well as improvements and necessary facilities within the designated three-mile area.

All proposed annexations shall be required to conform to the Colorado Municipal Annexation Act of 1965 as amended, building code, electric code, environmental covenants, Town of Columbine Valley Master Plan, and any additional planning documents approved by the Town of Columbine Valley.

Communications & Happenings

- The new printed directories have arrived at Town Hall, so far about one dozen people have signed on to the online directory and only a few more have picked up the printed copy. A postcard will be mailed to all residence in the coming week to remind them of their directory options.
- The municipal code codification project, which began last year, will continue well into 2022. The Town's municipal code is being updated with recently adopted ordinances, going through a full legal review to ensure compliance with state and federal law, and will eventually be available online in a more user-friendly version.
- Staff has been tracking the Colorado Municipal League's policy work and will continue to monitor Legislative bills that may impact the Town. Should anything require Trustee response or action, a update will be sent via email.
- Municipal Court continues to evolve as the new judge reviews old policies and practices, as well as ensuring compliance with new laws that went in to effect in January. Staff continues to navigate COVID challenges and may need to bring Court back into the Columbine Valley Town Hall if the Littleton Courthouse is closed.

Public Works

- A new sump pump and piping was installed in the basement of Town Hall. This repair replaced the old corroded pump and the original pipe connections that were held together with duct tape. The backup generator was opened up for testing and annual maintenance.
- A new laminated glass security window was installed in the lobby at Town Hall. This was a step recommended by the 2019 security audit and the need was further enforced by COVID-19 safety protocols.
- The fall paving program was delayed last year due to labor and supply shortages. Damaged gutter pans at seven locations around town were replaced, totaling 1,800 square feet of concrete. Crack sealing was also applied to the majority of the town to help preserve the lifespan of the pavement. Some areas of damaged asphalt were also patched.
- Multiple speed limit signs that have been damaged in the past were removed and replaced. New speed limit signs were installed along a section of Fairway Lane to reflect the new lower speed limit of 20 MPH.
- During the fall, a beaver built a dam on Dutch Creek, causing water to slowly build up behind it. To avoid any potential damage caused by the increase in water height, the dam was removed, allowing water to properly flow to the Platte River.

December 1, 2021

Honorable Mayor and Members of the Board of Trustees Town of Columbine Valley 2 Middlefield Columbine Valley, Colorado 80123

We are pleased to confirm our understanding of the services we are to provide the Town of Columbine Valley for the year ended December 31, 2021. We will audit the financial statements of the governmental activities and each major fund, including the related notes to the financial statements, which collectively comprise the basic financial statements of the Town of Columbine Valley as of and for the year ended December 31, 2021. Accounting standards generally accepted in the United States of America (GAAS) provide for certain required supplementary information (RSI), such as management's discussion and analysis (MD&A), to supplement the Town of Columbine Valley's basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB) who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, if applicable, we will apply certain limited procedures to the Town of Columbine Valley's RSI in accordance with GAAS. These limited procedures will consist of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtain during our audit of the basic financial statements. We will not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The following RSI is required by U.S. generally accepted accounting principles (GAAP) and will be subjected to certain limited procedures, but will not be audited:

- Management's Discussion and Analysis
- Budgetary Comparison Schedule General Fund
- Schedules required by GASB Statement No. 68 Accounting and Financial Reporting for Pensions
- Schedules required by GASB Statement No. 75 Accounting and Financial Reporting for Postemployment Benefits
 Other Than Pensions

We have also been engaged to report on the supplementary information other than RSI that accompanies the Town of Columbine Valley's financial statements. We will subject the following supplementary information to the auditing procedures applied in our audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS, and will provide an opinion on it in relation to the financial statements as a whole.

- Schedule of Five Year Summary of Assessed Valuation, Mill Levy and Property Taxes Collected
- Local Highway Finance Report

The objectives of our audit are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; issue and auditor's report that includes our opinion about whether your financial statements are fairly presented, in all material respects, in conformity with GAAP, and report on the fairness of the supplementary information referred to in the second paragraph when considered in relation to the financial statements as a whole. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. Misstatements, including omissions, can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment of a reasonable user made based on the financial statements.

Honorable Mayor and Members of the Board of Trustees Town of Columbine Valley Page 2

Auditor's Responsibilities for the Audit of the Financial Statements

We will conduct our audit in accordance with GAAS and will include tests of your accounting records and other procedures we consider necessary to enable us to express such opinions. As part of an audit in accordance with GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit.

We will evaluate the appropriateness of accounting policies used and the reasonableness of significant accountingestimates made by management. We will also evaluate the overall presentation of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation. We will plan and perform the audit to obtain reasonable assurance aboutwhether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the government or to acts by management or employees acting on behalf of the government.

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and becausewe will not perform a detailed examination of all transactions, there is an unavoidable risk that some material misstatements may not be detected by us, even though the audit is properly planned and performed in accordancewith GAAS. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. However, we will inform the appropriate level of management of any material errors, fraudulent financial reporting, or misappropriation fassets that comes to our attention. We will also inform the appropriate level of management of any violations oflaws or governmental regulations that come to our attention, unless clearly inconsequential. Our responsibility as auditors is limited to the period covered by our audit and does not extend to any later periods for which we are notengaged as auditors.

We will also conclude, based on the audit evidence obtained, whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for a reasonable period of time.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, tests of the physical existence of inventories, and direct confirmation of receivables and certain assets and liabilities by correspondence with selected customers, creditors, and financial institutions. We will also request written representations from your attorneys as part of the engagement.

We may, from time to time and depending on the circumstances, use third-party service providers in serving your account. We may share confidential information about you with these service providers but remain committed to maintaining the confidentiality and security of your information. Accordingly, we maintain internal policies, procedures, and safeguards to protect the confidentiality of your personal information. In addition, we will secure confidentiality agreements with all service providers to maintain the confidentiality of your information and we will take reasonable precautions to determine that they have appropriate procedures in place to prevent the unauthorized release of your confidential information to others. In the event that we are unable to secure an appropriate confidentiality agreement, you will be asked to provide your consent prior to the sharing of your confidential information with the third-party service provider. Furthermore, we will remain responsible for the work provided by any such third-party service providers.

Audit Procedures—Internal Control

We will obtain an understanding of the Town and its environment, including internal control relevant to the audit, sufficient to identify and assess the risks of material misstatement of the financial statements, whether due toerror or fraud, and to design and perform audit procedures responsive to those risks and obtain evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentation, or the override of internal control. An audit is not designed to provide assurance on internal control or to identify deficiencies in internal control. Accordingly, we will express no such opinion. However, during the audit, we will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards.

Audit Procedures—Compliance

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of the Town of Columbine Valley's compliance with the provisions of applicable laws, regulations, contracts, and

Honorable Mayor and Members of the Board of Trustees Town of Columbine Valley Page 3

agreements. However, the objective of our audit will not be to provide an opinion on overall compliance and we will not express such an opinion.

Other Services

We will also prepare (or assist in preparing) the financial statements of Town of Columbine Valley in conformity with U.S. generally accepted accounting principles based on information provided by you. We will perform the services in accordance with applicable professional standards. These other services are limited to the financial statements services previously defined. We, in our sole professional judgment, reserve the right to refuse to perform any procedure or take any action that could be construed as assuming management responsibilities.

Responsibilities of Management for the Financial Statements

Our audit will be conducted on the basis that you acknowledge and understand your responsibility for designing, implementing, and maintaining internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, including monitoring ongoing activities; for the selection and application of accounting principles; and for the preparation and fair presentation of the financial statements in conformity with accounting principles generally accepted in the United States of America.

At the conclusion of our audit, we will require certain written representations from you about the financial statements and related matters.

Your responsibilities include adjusting the financial statements to correct material misstatements and confirming to us in the written representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud or illegal acts affecting the Town involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the financial statements. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the Town received in communications from employees, former employees, regulators, or others. In addition, you are responsible for identifying and ensuring that the Town complies with applicable laws and regulations.
