

Columbine Valley Statement
November 10, 2025

The Town of Columbine Valley is certainly aware of the issues surrounding a theft investigation in the Town of Bow Mar, which we protect.

Our officer, using the evidence and information available to him at the time, had a reasonable belief in issuing a summons. It was not until approximately two weeks later that exculpatory evidence was submitted to our department for review, and the decision was made to drop the charges.

We have reviewed the event and have taken steps to assure that our police officers continue to use their best judgment in interacting with persons with whom we have contact. We have decided that appropriate disciplinary action will be applied to the officer involved in this event.

As we review this matter, we will exercise our efforts to ensure that our citizens continue to have faith in our officers and department. We believe in maintaining transparency and will continue to protect and serve the communities of Columbine Valley and Bow Mar with professionalism and integrity.
